EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

IN THE CLAIMS:

Claim 24:

- Line 8, changed "arrays" to --array--.

NOTE: The above amendment to claim 24 corrects a minor typographical error, which is deemed not necessary to seek prior approval of the Applicant's Representative.

Claim 24 was objected for the above minor informality in the previous Office action issued on March 17, 2004, but was not addressed by the Applicant in his response on June 2, 2004.

2. The following is an examiner's statement of reasons for allowance: claims 1, 23 and 24 are patentable over the prior art patents and printed publications because of the specific optical recording system, which includes a writing array of modulated light sources and a reading array of modulated light sources, each array being formed on a separate substrate, and an objective lens positioned relative to the writing array and the

Art Unit: 2861

reading array for focusing the light beams from each of the writing and reading arrays on a target medium. The combined limitations as currently recited are not taught by the art of record alone or in combination.

Claims 12 and 22 are patentable over the prior art patents and printed publications because of the specific optical recording system, which includes a writing array comprising a first Vertical Cavity Surface Emitting Laser and a reading array comprising a second VCSEL, each array being formed on a separate substrate, an objective lens positioned relative to the writing array and the reading array for focusing the light beams from each of the writing and reading arrays on a target medium, and a detector for receiving beams emanated from the second VCSEL array as well as beams reflected from the target medium. The combined limitations as currently recited are not taught by the art of record alone or in combination.

Claims 2-10, 13-16 and 20-21 are allowed because they are directly or indirectly dependent from claims 1 and 12 above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hai C Pham whose telephone number is (571) 272-2260. The examiner can normally be reached on M-F 8:30AM - 5:30PM.
